

H5112

By Mobiwire

Compact Eco-Friendly 4G Smartphone

4G Connectivity in a compact design

Stay connected with the world at high speeds.

The H5112 ensures swift and reliable internet access, enabling seamless communication and fast data transfers. It boasts a sleek and compact design, making it easy to carry and comfortable to use. Its minimalist yet stylish appearance aligns with the modern lifestyle.

Entry-Range Affordability

Experience the power of a 4G smartphone without breaking the bank.

The H5112 is designed for accessibility, making advanced technology available to a wider audience.

Eco-Friendly Materials

Embrace sustainability without compromising on aesthetics.

The H5112 is made with 95% recycled plastic and adorned with an environmentally conscious water-based paint, reducing harmful chemical emissions traditionally associated with standard paint manufacturing.

Product Description

Introducing our latest 4G smartphone designed to empower the user while minimizing its environmental impact.

The H5112 is a very good value for its price point, all the while with a commitment to eco-friendliness. Indeed, this smartphone incorporates 95% of recycled plastics and water-based paint.

Optional features include NFC, eSIM and a 64Go memory.
